## Teens and Their Futures

Given current concerns about the environment, teens describe their futures as...

bright and hopeful or okay **51%** 

uncertain, difficult, or sad

## Teens believe...

the environment is in bad shape, but can be saved.

**51%** 

the environment will be worse in the future than it is now.

45%

This

60% believe they will have richer life experiences than their parents and 42% believe they will have more possessions.

4:3

Overall, teens see themselves as leaders among their peers when it comes to video games (39%), academics (38%), and music (38%), but not much on the environment (12%).

## Teens worry most about:

Concern about the environment is substantial (59%).

Most don't know what they want to study, but they are interested in medicine, engineering, and business.

How to ensure a healthy environment in the future?

Teens say...
